

BULLSEYE BOURBON WHISKEY

Bullseye is a blend of 2-4yr MGP High Rye mash bill Bourbon (60/36/4), bottled up at 46% non-chill filtered (1 Liter).

Not going through the process of chill filtering allows the fats and oils to remain in the bourbon giving the bourbon a much bigger body and mouth feel.

The oils coat the inside of your mouth, softening up the alcohol.

The fats give the bourbon a larger mouth feel and flavor profile. Much like having a steak with some fat on it, more flavor.

Bullseye is a bourbon that has big flavor and viscosity, offering a very pleasurable experience at a value.

GIVE IT YOUR BEST SHOT.
